AMA SECURES FIRST INDIVIDUAL SUPPLY CONTRACT

Further to the Company's previous operational updates in its prior new releases, results announcements, annual report and other announcements, the Company is pleased to announce that it has signed its first individual contract to supply Tantalite concentrate under the terms of the distribution agreement signed with Mitsubishi Corporation RtM Japan Ltd.

Although this first initial sample order Tantalum concentrate is not expected to have a material financial impact to the financial results of the Company for FY2016, it earmarks a significant milestone in the development of the Company, and the Company expects that further orders will follow. As indicated previously, the Company will only commence recognition of revenue from the sale of Tantalum when commissioning of the plants are completed.

Mr Tjandra Pramoko, CEO of AMAL says "Japanese customers demand quality. This first shipment demonstrates that we are a supplier of quality Tantalite concentrate that meets the highest product requirements of Japanese customers."

The Company is currently preparing the material to satisfy the contract and have submitted an application for an Export License. The commissioning of the Secondary Beneficiation Plant is still ongoing before entering a "ramp up" period towards realizing its objective of full commercial production.
